

Noah's Ark

God chose Noah to build the ark, and for his family to survive the flood and then repopulate the earth. Noah was a righteous man, blameless in his generation.

About the Ark

Estimates for completing the ark range from 70 to 120 years.

Capacity: 522 railroad stock cars

Volume: 1,396,000 cubic ft.

Weight: 13,960 tons

The ark was divided into three decks and had enough space to hold 125,280 sheep-sized animals.

Size Comparison

A vessel of ancient history, the ark was not much smaller than modern ocean liners.

Building Materials

Made of "gopher wood," the ark was sealed with pitch.

Ark Passengers

Noah's family, along with many pairs of land animals and birds of the sky stayed in the ark during the flood until the waters subsided enough for them to disembark.

Noah and his wife

Noah's sons, Shem, Ham and Japheth, and their wives

Air and land animal pairs

The ark was made of "gopher" wood. The vessel was then caulked with pitch. The passengers remained safe inside until the waters of the flood subsided, nearly one year later.

INSIDE THE ARK

The ark was built with three decks and provisioned by Noah for himself and his family and every kind of bird and animal as God commanded:

- 7 pairs * each of all clean animals
- 7 pairs each of all birds of the air
- 2 pair each of all unclean animals

*pair denotes 1 male and 1 female

What was the problem?

Man's sin, going his way instead of God's.

What does the text say God decided to do?

God was going to judge them. Destroy them by
flood

<p>Way to escape death/punishment</p>	<p>Why would this be difficult?</p>	<p>How would he be better off in the future?</p>
<p>Build an ark. Why? What does Noah believe?</p> <ul style="list-style-type: none"> • God's judgement is coming/flood • God's way to escape judgement will work. <p>How do we know he believes?</p> <ul style="list-style-type: none"> • He obeys. 	<ul style="list-style-type: none"> • Took over 100 years to build it. • Physically difficult. • Did it basically alone. • People mocked him. • Never rained before. 	<ul style="list-style-type: none"> • Escapes judgement • LIVES!!!

(Draw this chart in your notes.)

Geological Evidence of World Wide Flood

Evidence 1: Fossils of sea creatures high above sea level due to the ocean waters having flooded over the continents

Evidence 2: Rapid burial of plants and animals

Evidence 3: Rapidly deposited sediment layers spread across vast areas

Evidence 4: Sediment transported long distances

Evidence 5: Rapid or no erosion between strata

Evidence 6: Many strata laid down in rapid succession
