Introduction to Bible

The bible is a religious book; it tells about God & His plan for humanity.

Bible is called the Word of God because through it God communicates, expresses Himself to us.

It is used by Christians as the main source of Christian knowledge.

Definition of Management in The Holy Bible

“Management” is another word for “Stewardship”.

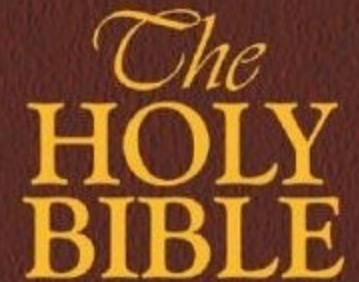

Stewards or Managers are responsible over something entrusted to them by someone else. Management is the process of accomplishing God’s purpose and plans through proper use of human, material and spiritual resources.

Conclusion

Anyone who operates a business MUST have a good moral framework, or what is known as “ethics” to support every part of that business.

Grasping them leads to success, ignoring or rejecting them leads to failure.
