SWINE AND BLOOD ARE FORBIDDEN IN ISLAM, JEW AND CHRISTIANITY

Quran 5:3 Forbidden to you (for food) are: *Al-Maytatah* (the dead animals - cattle-beast not slaughtered), blood, the **flesh of swine** (pig) , and the meat of that which has been slaughtered as a sacrifice for others than Allâh, or has been slaughtered for idols, etc.,

SCIENTIFIC RESEARCH

- **The swine** presents the greatest hazard and partly because its use is so wide spread.
- **In scientific research** reveal that in addition to **CHOLESTEROL** found in pork.
- **It also contains** a number of **TOXINS** and **CONTAMINANTS** which are associated with human poisoning.

PORK PRODUCTS ARE NOTORIOUS

NOTORIOUS FOR WORM INFESTATION SUCH AS:

- **Trichinella spiralis, taenia solium (pork tape worm), and pathogenic disease causing organisms such as salmonella.**
- **Trichinosis is probably the most wide spread parasitic infestation.**

When man eats infested SWINE FLESH, the LARVAE of the TRICHINA WORM are turned loose in his intestine.

From there they burrow into the intestinal wall, enter the Lymph Spaces and the Blood Stream, and finally end up in the SKELETAL MUSCLES.

Each female worm produces as many as 1,500 living larvae.

Once a person is infected, these Worms may live on his muscles for years!

SYMPTOMS OF SUCH INFESTATION

- **Stomach pain, Nausea, Vomiting and serious Diarrhea**
- **One may also experience swollen, painful muscles, swelling of the face, profuse sweating and high fever.**

SWINE INFLUENZA --- H1N1

(From Wikipedia, the free encyclopedia)

- **Swine influenza** (also called **swine flu, hog flu, pig flu** and sometimes, the swine) is an infection by any one of several types of **SWINE INFLUENZA VIRUS**

A pig is shown in a muddy, outdoor environment, likely a farm or a natural habitat. The pig is light-colored and is standing in the mud. The background is a mix of brown mud and some green vegetation.

Swine influenza virus (SIV) is any strain of the Influenza family of viruses that is endemic in pigs

As of 2009, the known SIV strains include influenza C and the subtypes of influenza A known as H1N1, H1N2, H3N1, H3N2, and H2N3.

SWINE INFLUENZA IS ENDEMIC IN PIGS

- **SWINE INFLUENZA VIRUS IS COMMON THROUGHOUT PIG POPULATIONS WORLDWIDE**
- **If transmission does cause human influenza, it is called zoonotic swine flu.**
- **People with regular exposure to pigs are at increased risk of swine flu infection.**

HISTORY OF SWINE INFLUENZA

- **Swine influenza was first proposed to be a disease related to human influenza during the 1918 flu pandemic, when pigs became sick at the same time as humans.**
- **The first identification of an influenza virus as a cause of disease in pigs occurred about ten years later, in 1930.**

For the following 60 years, swine influenza strains were almost exclusively H1N1.

Then, between 1997 and 2002, new strains of three different subtypes and five different genotypes emerged as causes of influenza among pigs in North America.

1918 PANDEMIC IN HUMANS

- The **H1N1** form of swine flu is one of the descendants of the strain that caused the **1918 flu pandemic**

100 It is estimated that **anywhere from 50 to million people were killed worldwide.**

As well as persisting in pigs, the descendants of the 1918 virus have also circulated in humans through the 20th century, contributing to the normal seasonal epidemics of influenza.

1998 US OUTBREAK IN SWINE

**IN 1998, SWINE FLU WAS FOUND IN PIGS
IN FOUR U.S. STATES**

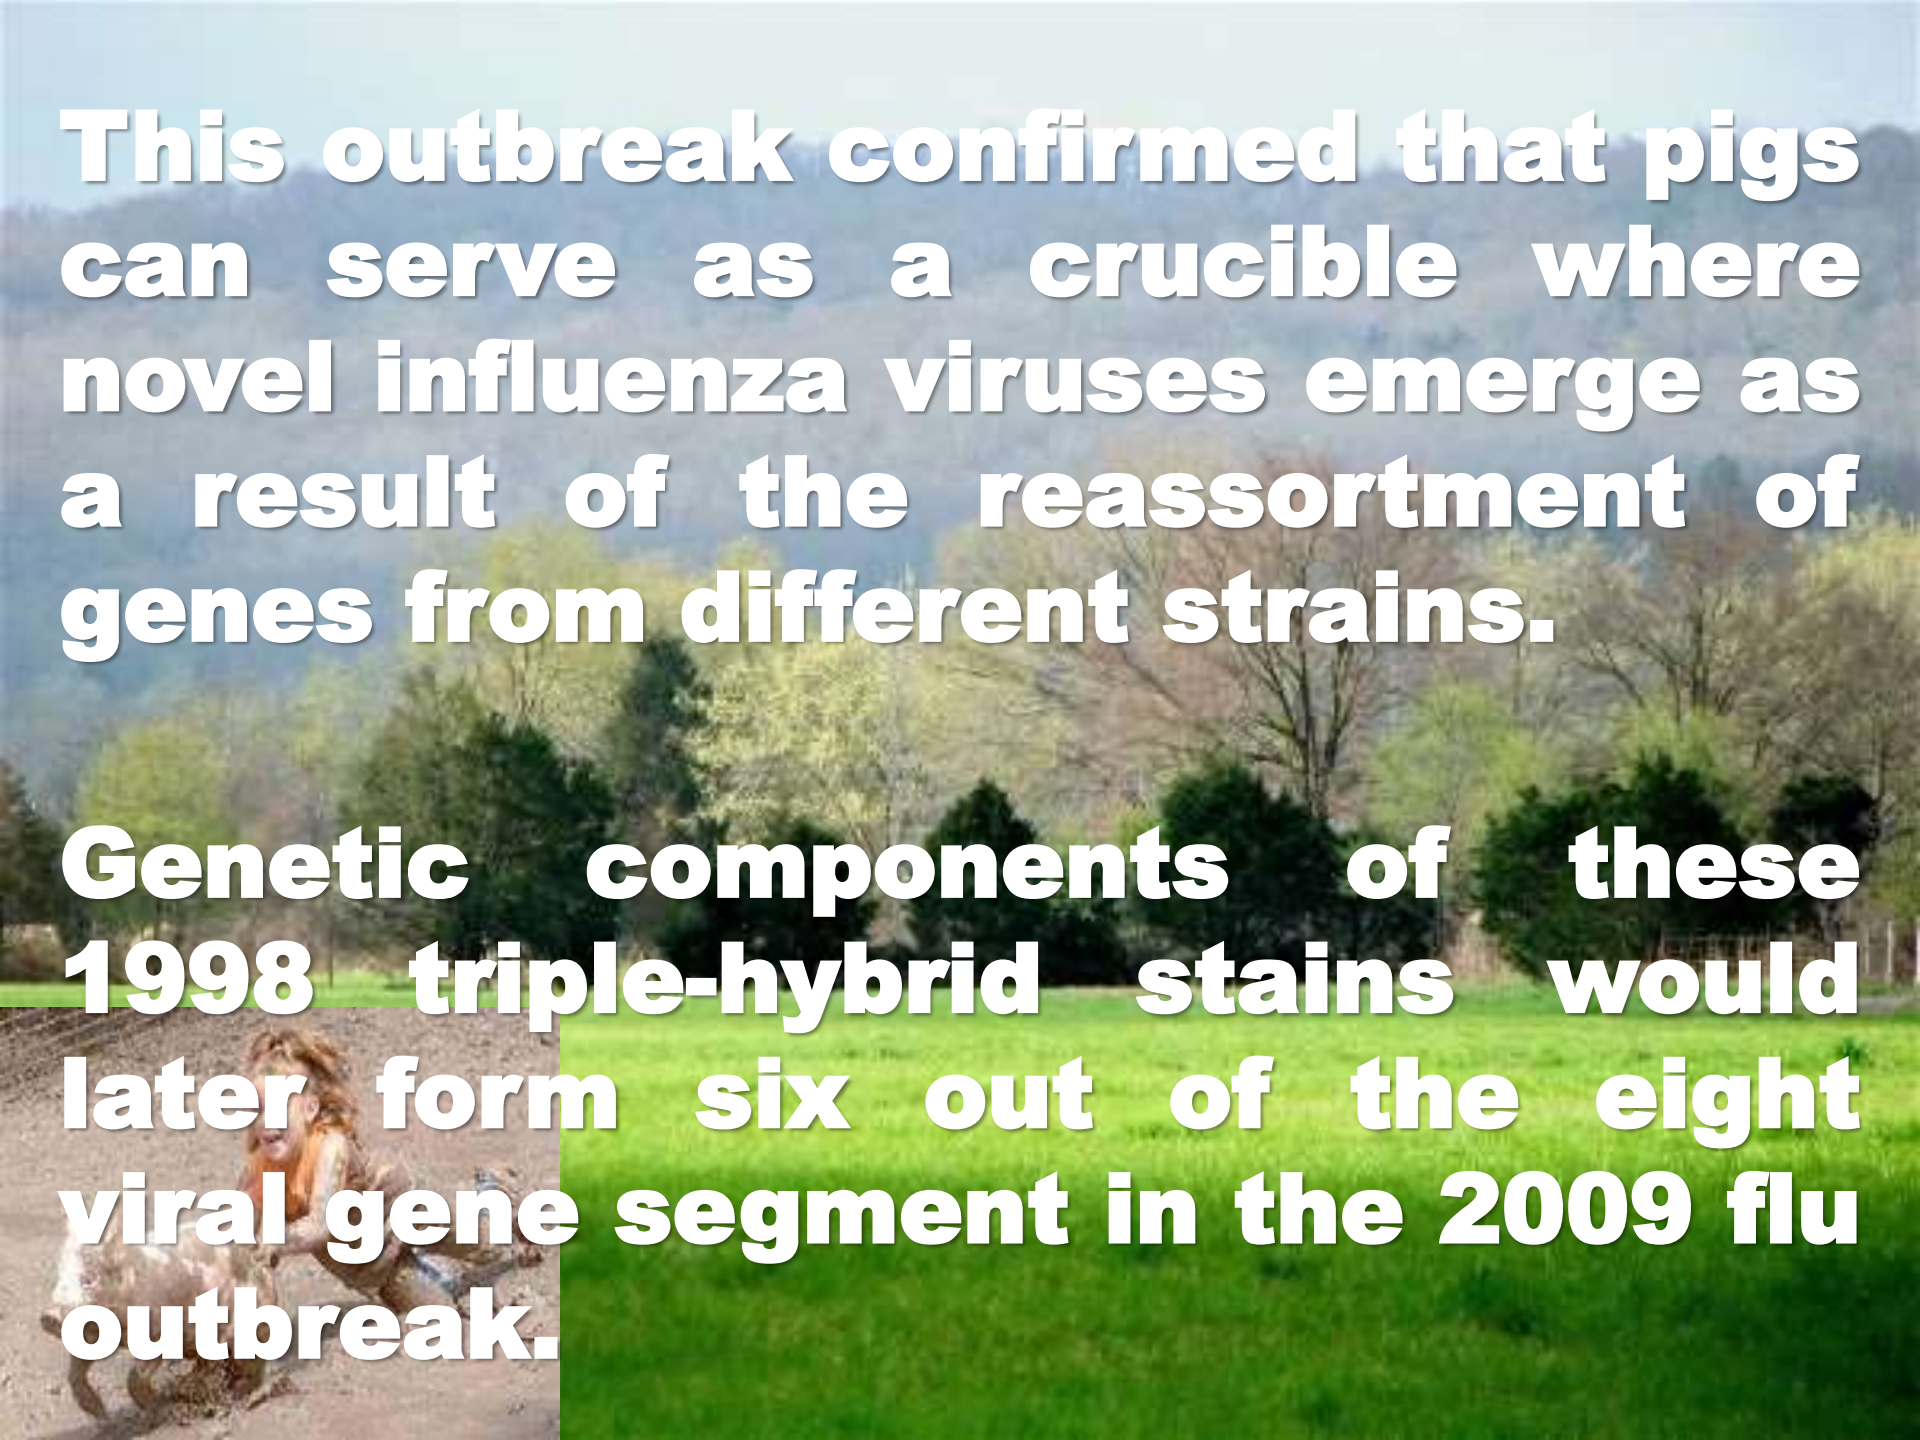

- **Within a year, it had spread through big populations across the United States.**

Scientists found that this virus had originated in pigs as a recombinant form of flu strains from birds and humans.

This outbreak confirmed that pigs can serve as a crucible where novel influenza viruses emerge as a result of the reassortment of genes from different strains.

Genetic components of these 1998 triple-hybrid strains would later form six out of the eight viral gene segment in the 2009 flu outbreak.

2007 PHILIPPINE OUTBREAK IN SWINE

- On August 20, 2007 Department of Agriculture officers investigated the outbreak (epizootic) of swine flu in Nueva Ecija and Central Luzon

The mortality rate is less than 10% for swine flu, unless there are complications like *hog cholera*

On July 27, 2007, the Philippine National Meat Inspection Service (NMIS) raised a hog cholera "*red alert*" warning over Metro Manila and 5 regions of Luzon after the disease spread to backyard pig farms in Bulacan and Pampanga, even if these tested negative for the swine flu virus.

WORLD HEALTH ORGANIZATION

- In late April, Margaret Chan, the World Health Organization's director-general, declared a "public health emergency of international concern" under the rules of the WHO's new International Health Regulations when the first cases of the **H1N1** virus were reported in the United States.

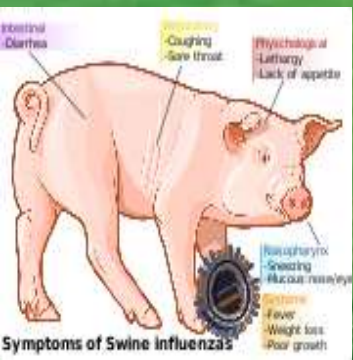

Following the outbreak, on May 2, 2009, it was reported in pigs at a farm in Alberta, Canada, with a link to the outbreak in Mexico

The pigs are suspected to have caught this new strain of virus from a farm worker who recently returned from Mexico, then showed symptoms of an influenza-like illness.

“in the US it appears that for every 1000 people who get infected, about 40 people need admission to hospital and about one person dies.”

There are fears that swine flu will become a major global pandemic at the end of the year (coinciding with the Northern Hemisphere winter months), with many countries planning major vaccination campaigns.

SIGNS AND SYMPTOMS IN SWINE FLU

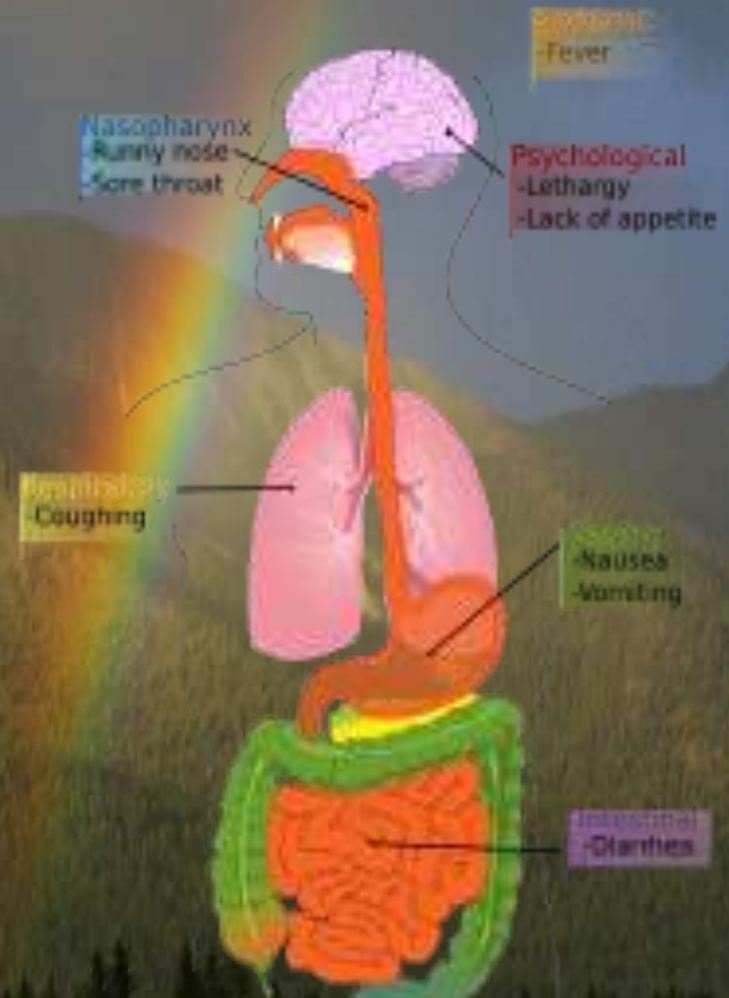

IN PIGS INFLUENZA

infection produces fever
lethargy, sneezing,
coughing, difficulty,
breathing and
decreased appetite.

IN HUMANS:

- Direct transmission of a swine flu virus from pigs to humans is occasionally possible (called zoonotic swine flu).

Symptoms of Swine Flu

PREVENTION OF PIG TO HUMAN TRANSMISSION

- **The transmission** from swine to human is believed to occur mainly in swine farms where farmers are in close contact with live pigs.
- **Although strains of swine influenza** are usually not able to infect humans this may occasionally happen, so farmers and veterinarians are encouraged to use a **face mask** when dealing with infected animals.

The use of vaccines on swine to prevent their infection is a major method of limiting swine to human transmission.

Include smoking and not wearing gloves when working with sick animals.

PREVENTION OF HUMAN TO HUMAN TRANSMISSION

- **Influenza spreads between humans through coughing or sneezing and people touching something with the virus on it and then touching their own nose or mouth.**

This includes frequent washing of hands with soap and water or with alcohol-based hand sanitizers especially after being out in public.

Chance of transmission is also reduced by disinfecting household surfaces, which can be done effectively *with* a diluted chlorine bleach solution.

PREVENTION OF HUMAN TO HUMAN TRANSMISSION

Influenza can spread in coughs or sneezes, but an increasing body of evidence shows small droplets containing the virus can linger on tabletops, telephones and other surfaces and be transferred via the fingers to the mouth, nose or eyes.

Alcohol-based gel or foam hand sanitizers work well to destroy viruses and bacteria.

SWINE (PIG) FORBIDDEN IN ISLAM, JEW AND CHRISTIANITY

- **Quran 5:3** Forbidden to you (for food) are: *Al-Maytatah* (the dead animals - cattle-beast not slaughtered), blood, the **flesh of swine, ...**
- and the meat of that which has been slaughtered as a sacrifice for others than Allâh, or has been slaughtered for idols, etc.,

AND NOT ONLY IN THE QURAN, EVEN IN THE BIBLE SWINE IS PROHIBITED

- **Leviticus 11:7** And the **swine**, though he divide the hoof, and be cloven-footed, yet he cheweth not the cud; he is unclean to you.
- **Leviticus 11:8** Of their **flesh** shall ye not eat, and their **carcass** shall ye not touch; they are unclean to you.

BLOOD IS FORBIDDEN IN ISLAM, JEW AND CHRISTIANITY

Leviticos 17:10 And
whatsoever man there be of
the house of Israel, or of the
strangers that sojourn among
you, that **eaten any manner of
blood;** I will even set my face
against that soul that eat
blood, and will cut him off
from among his people.

BLOOD IS FORBIDDEN IN ISLAM, JEW AND CHRISTIANITY

**Leviticus 17:11 For the life
of the flesh is in the blood:**
and I have given it to you
upon the altar to make an
atonement for your souls:
for it is the blood that
maketh an atonement for
the soul.

BLOOD IS FORBIDDEN IN ISLAM, JEW AND CHRISTIANITY

Leviticus 17:12 Therefore I said unto the children of Israel, No soul of you shall eat blood, neither shall any stranger that sojourned among you eat blood.

Leviticus 17:13 And whatsoever man there be of the children of Israel, or of the strangers that sojourn among you, which hunteth and catcheth any beast or fowl that may be eaten; he shall even pour out the blood thereof, and cover it with dust.

WHY EATING SWINE IN THE GRAVE?

- **Isaiah 65:4** Which remain among the graves, and lodge in the monuments, which eat swine's flesh, and broth of abominable things is in their vessels;

WHY JESUS CAST OUT THE DEVILS UNTO THE HERD OF SWINE?

The answer is simple because
Matthew 8:23 And, behold, they cried
to him, saying, What have we to do
with thee, Jesus of Nazareth? thou
sayest, thou wilt come out, thou wilt
come to the other side, into the
country of the Gergesenes, and, behold,
the whole herd of swine ran violently
down a steep place into the sea, and
perished in the waters. So the devils
besought him, saying, If thou cast us
out, suffer us to go away into the herd
of swine.

WHY JESUS CAST OUT THE DEVILS UNTO THE HERD OF SWINE?

The answer is simple because

there met him two possessed
a steep place into the sea, and
perished in the waters. So the devils besought
him, saying, If thou cast us out, suffer
us to go away into the herd of swine.

JESUS SAID I AM NOT COME TO DESTROY THE LAW

- **MATHEW 5:17** Think not that I am come to destroy the law, or the prophets: I am not come to destroy, but to fulfill.
- So, the statement of Jesus of this verse is to confirm that he himself he doesn't want to eat swine and blood like Moses and other Prophets of God.

EAT OF THAT WHICH IS LAWFUL TO YOU

- **Quran 2:168** O ye people! Eat of what is on earth lawful and good; and do not follow the footsteps of the evil one for he is to you an avowed enemy.

SATAN COMMAND YOU ONLY WHAT IS EVIL

- **Quran 2:169** For he (Satan) commands you what is evil and shameful and that ye should say of Allah that of which ye have no knowledge.
